

Total synthesis of Cyclopiamine B

R. Sarpong *et al.*, *Nature* **2014**, *509*, 318–324.

14.11.18

review: metal vinylidenes as catalytic species in organic reactions (step g)
Chem. – Asian J. **2008**, *3*, 164–194.

mild hydrolysis of nitriles (step j)
Tetrahedron Lett. **1995**, *36*, 8657–8660.

Hofmann rearrangement triggered by hypervalent iodine (step k)
J. Org. Chem. **1993**, *58*, 2478–2482.
